### SCHOOL BOARD FINDS BOYS NEGLECTED

#### BOYS' SCHOOL IS FOUND UNFIT BY BOARD ON VISIT

Following a sudden visit of inspection made at the Boys' Industrial school yesterday by the Commissioners of Education, the commissioners today began a more thorough probe of the school's affairs. The finances were under scrutiny at a meeting this morning and will be taken up again this afternoon. The inquiry this morning showed a deficit of \$6,600 prior to June 29, 1911.

One hundred and sixty-two boys, fifty of whom are between the ages of six and twelve years old, crowded into buildings hopelessly inadequate as to size and requirements, bed linen that was in some cases indescribably filthy, hopelessly inadequate supplies of wearing apparel, stories of criminal negligence on the part of unnatural parents—all this and much more

was brought to the notice of the Territorial commissioners of education during their visit to the Boys' Industrial school at Waialeale yesterday. Accompanying the commissioners and Superintendent Pope on their trip yesterday was a representative of the Bulletin, and what was discovered there is what the commissioners

#### DIRECTOR WALL ANNOUNCES BIG PROGRAM FOR FLORAL PARADE

Director-General Arthur F. Wall, of the 1912 Floral Parade, today announced the program for the two nights and a day of festivities that will make the parade the biggest event of its kind ever attempted in Honolulu. He announced also that A. M. Brown, whose abilities as marshal of the day were displayed last year, will again be marshal, having consented to serve after a conference with Director Wall.

The program as now arranged is:

February 21, evening—Water carnival in harbor.

February 21, evening—Opera "Pinafore" at U. S. Naval docks.

February 22, morning—Military parade, participated in by army, navy and marines.

February 22, morning—A. A. U. sports, Alexander Field.

February 22, afternoon—1912 Floral Parade and Battle of Flowers.

February 22, evening—Japanese lantern parade.

February 22, evening—Street March.

February 22, evening—Colonial Ball, Young Hotel.

Although the events will all take

#### CONFESSED MURDERER WILL HANG

Practically on the eve of his execution for murder, Ejiro Nakamura, the "bad man of Kauai," has confessed his guilt to the Rev. G. Motokawa, a Japanese pastor of this city.

Strangely enough, Motokawa was one of a party of Japanese pastors, that called on Governor Peary last Friday to plead that the death sentence might be commuted to life imprisonment. Among the delegation was Attorney A. K. Ozawa.

Nakamura is to be hanged tomorrow morning at Oahu prison. Governor Peary after listening to the Japanese pastors and their arguments, called in Attorney General Lindsay. Lindsay told of the "bad man's" record, and the pastors withdrew their protest.

Later on the Rev. Motokawa called on the prisoner, who has been brought from Kauai, and it was then the man confessed to the murder of another Japanese. It is said that he has the blood of several other men on his hands.

#### CRUISER NEW ORLEANS DUE THIS EVENING

The United States cruiser New Orleans, from the Asiatic station, which vessel sailed from Olongapo some weeks ago, is due to arrive at Honolulu en route to Mare Island at 7 o'clock this evening, according to a late wireless received this afternoon.

#### KAU BILL PASSES HOUSE

WASHINGTON, D. C., Jan. 15.—H. R. 11628, the bill authorizing John T. McGrosson and his associates to carry out the big Kau irrigation project on the island of Hawaii, passed the House today.

The "Kau Ditch Bill," as the measure is known, is regarded as one of the most important pieces of constructive legislation for Hawaii before Congress. The bill authorizes the construction of a ditch with reservoirs and accessories, to convey water for about a hundred miles in the southern part of the island. The ditch must have a minimum capacity of 100,000,000 gallons of water per day, is expected to irrigate approximately 15,000 acres of land and will cost about \$2,250,000.

One of the most important features about the passage of the measure is that the House goes on record as in favor of encouraging reclamation in Hawaii by exempting the ditch company and its property from taxation for a period of the first ten years of its fifty-year term. This declaration of policy is made by the favorable committee report that preceded passage of the bill.

#### DAMON DR. SUN'S AIDE? War Scare And Uyeno

That the Rev. Frank W. Damon will be appointed special advisor to Dr. Sun Yet Sen, president of the Republic of China, is the report today in Chinatown. This morning, Sun Yet Sen, president of the Republic of China, was seen by a Bulletin reporter, and in answer to a direct question put to him about the possibility of his father appointing Mr. Damon as a special advisor, said that it is possible that such action is considered by his father. He intimated that he was not in a position to speak for his father now, but stated his belief that his father will certainly recognize Mr. Damon's services as one who has done much for him during his youth here.

Mr. Damon, himself, busily decorating the hall of the United Chinese Society, was seen shortly afterwards, and asked about the rumor of his going to China as a special advisor to President Sun Yet Sen. He was not surprised when interrogated about the matter.

"I don't know anything about what the future will bring," said Mr. Damon, "but Dr. Sun is certainly a wonderful man." Further than this he would not speak.

Major Gen. Carter's "war scare," sprung on Congress last week, is not taken at all seriously by Consul General Uyeno, representative of the Japanese government here. Gen. Carter declared that there are 25,000 trained Japanese soldiers in Hawaii, who would fight for Japan in case of war, but was regarded as the remotest kind of a contingency by Consul Uyeno.

"Perfect" was Consul General Uyeno's answer this morning to a question by a Bulletin reporter as to the relations between Japan and the United States and their bearings on Gen. Carter's talk to the House committee on military affairs.

Consul Uyeno assured the Bulletin reporter that the friendly relation between the two governments now is so perfect that there is no occasion for him to make a response to Gen. Carter's statement.

Mr. Uyeno emphasized the fact that the two central governments understand each other so thoroughly that he can add nothing to further strengthen the friendly relationship.

The consul general says that according to the military laws of Japan every male subject of the Mikado is expected to have military training as soon as he becomes of age, and stated further that he, himself, under the same rule, had had military training.

Further than that Consul General Uyeno declined to say anything about the remarks made by Gen. Carter before the House committee.

"We in Hawaii," said Mr. Uyeno, "are living in peace and harmony. The Japanese are well contented in their work, and there is nothing to say otherwise."

#### Burglar At MINISTER CHANG COMING HERE ON WAY HOME

The home of Norman E. Gedge on Liliha street was entered between the hours of eight and ten o'clock Saturday evening, during a time the family was absent, and jewelry and valuables to the value of between three hundred and fifty and four hundred dollars were stolen.

The city detective and police staffs have been working on the case, with the result that Chief of Detectives Arthur McDuffie believes that he has a good clue to the perpetrator of the robbery.

When Mr. and Mrs. Gedge returned to their home they found a rear door had been opened and the floor of the dwelling strewn with burnt matches.

An investigation revealed the loss of articles of jewelry, including rings, bracelets, pins and necklaces, several of which were treasured keepsakes.

One matter that baffles the police is the fact that the robber failed to carry away several hundred dollars' worth of silverware and plate which were kept on an open sideboard and right within reach of the intruder.

Mr. Gedge, who is secretary and treasurer of the Inter-Island Steam Navigation Company, stated this morning that this makes the third successful burglary of his Liliha street home.

The officers found a well-defined footprint on the stone steps leading into the house. The mark is from a bare foot and presumably that of a boy or a rather small man. It is also interesting to note that the robbery was committed under the bright glare of a government light stationed almost immediately in front of the house.

A Porto Rican convicted of the robbery of the Gedge home on a previous occasion is now serving sentence on the reef.

#### JOHN WILSON GOES ON STAND

John H. Wilson was this afternoon placed on the stand as the first witness in the action brought by him against the Oahu Loan Fund commissioners in connection with the contract for the first portion of the belt road which he was denied.

Argument was first of all concluded on the replication filed by Wilson to his original complaint. Some of the points being struck out and others retained. The testimony during the afternoon will attempt to show that the witness has had big contracts before and has handled them satisfactorily.

#### TWEITMORE DENIES DYNAMITING GUILT

FRESNO, Cal., Jan. 15.—Olaf A. Tveitmore, the labor leader and Asiatic Exclusion League officer, under indictment in Los Angeles for alleged complicity in the union dynamiting cases, today denied any knowledge of the matter in his annual report made to the Convention of Trades Councils, as treasurer of the California State Federation of Labor.

The Bulletin has just received a shipment of 1912 Calendar Pads.

#### APPROPRIATION BILL SIGNED

One of the first official acts performed by Mayor J. J. Fern on arrival at his offices this morning was to affix his name to the city and county appropriation bill covering an itemized list of expenditures amounting to over three-quarters of a million dollars. The appropriation bill which passed further delay.

#### Maryland Is Off To Guayaquil

The cruiser Maryland parted company with her sister ships of the Pacific fleet early this morning and put out to sea under secret orders. That her destination is Guayaquil, and that she has been ordered there to increase American prestige and guard American interests during the present revolution in Ecuador, is the general rumor, not denied by the "higher-ups" of the fleet organization.

It is surmised that a group of Americans with heavy industrial interests in the revolutionary zone, has become alarmed for the safety of its dividends, and has "squealed" to Washington loud enough to secure a hearing and the dispatch of a warship to the scene of trouble. This has often happened before in connection with Central and South American wars, and it is believed here that with the dispatch of the Maryland the incident is closed for the Pacific fleet. None of the officers believe that any of the other cruisers will be required in South American waters.

The Maryland's departure was precipitate in the extreme and her men did excellent work in coaling ship and having everything ready for sail within 24 hours.

Admiral Thomas was routed out of bed at the Moana Hotel at midnight Saturday, to receive the cryptic cablegram that arrived from the Navy Department. He then issued the order for the Maryland's sailing, and Captain John M. Elliott, her commander, was in turn routed out of his bed at the Halewa Hotel, where he had gone with a party of friends for the weekend. Captain Elliott took the first train to town Sunday morning, and rejoined his ship shortly after 5 o'clock. Four hundred and fifty tons of coal was taken aboard before 4 in the afternoon, and stores were secured from the supply ship Glacier shortly after daylight, with full bunkers and provisions for a long cruise.
